

Rules for Submitting Music

Thank you for your input on the music that is played at our events. Your input helps us to develop a playlist that reflects the tastes of the community as a whole, while creating a family-friendly environment for our home sports contests. In order to maintain a family-friendly atmosphere, we have instituted a series of guidelines to help us develop a positive atmosphere that is inclusive of requests from all in our community.

- All requests must be screened by a designated member of our administration indicated below. This person may also designate up to two others who will have the ability to accept or deny a request. All music must be screened before it is played over the sound system.
- When submitting requests, please include the artist, title, and the lyrics of the song. It helps us locate the song. Better yet, provide a CD with your submission.
- Please allow at least 48 hours for approval. It's not that we don't want to listen to your request right now, we might not be able with other duties taking precedence.
- If the song hasn't received approval, we cannot play the song.
- If we don't know you, requests given off a CD, thumb drive, or other similar device will not be approved without direct confirmation from the person or people indicated below.
- Please do not produce a playback device (iPod, iPad, phone, etc.) and ask to connect it to the sound system. You will immediately be denied because we haven't had a chance to listen to your music.
- We cannot preview music two hours prior to the scheduled start of the game through the end of the game. Please do not ask to play a song within this time frame.
- Sorry, but you cannot see a list of songs that have been approved. We're really busy with the game and cannot supply a list on demand.
- Songs must not contain profanity, references to drug use, explicit lyrics, references to abuse or discrimination, political messages or contain obvious metaphors that reference any of the above or any other behavior deemed inappropriate by administration.
- Radio edits may still not be approved due to content. Please find "Clean" or "Squeaky Clean" edits.
- If you think it might not get approved because of the content, it probably won't. We've been doing this for a long time and a lot of people have tried to sneak songs through.

Our goal is to create a positive atmosphere for all attendees of our events. The above rules were put in place to allow for that atmosphere while being inclusive of our athletes and the community as a whole.

While your request may be heard on the radio, at home, or even at other sports events, it may not be appropriate for our community.

The following people have been designated to approve music, we cannot accept any music that hasn't been approved by any of the following:

Title: _____

Title: _____
